EDUCATION

Carnegie Mellon University

Pittsburgh, PA

Bachelor of Science in Statistics & Data Science, concentration in Computational Biology

May 2027

Minor in Business Administration Cumulative GPA: 3.81/4.0

Relevant Coursework: Probability & Statistical Inference, Methods for Statistics & Data Science, Multivariate Analysis, Optimization, Python Programming, Economics

WORK EXPERIENCE

Frame Data & AI | Analyst

Houston, TX | June 2026 – Present

Data & AI consultancy deploying production AI systems for Fortune 500 energy clients including major upstream and integrated oil operators.

- Shipped an end-to-end AI application automating executive presentation generation from client meeting notes by integrating Databricks, Python, and Azure AI services, reducing manual reporting effort and improving consistency of deliverables.
- Designed a production data pipeline that transforms structured and unstructured meeting data (audio transcription, diarization, emotion detection) into analytics-ready datasets, partnering with stakeholders from requirements gathering through Azure deployment to support product launch.
- Developing human-in-the-loop validation workflows with confidence scoring and source grounding, shipping enhancements across 3+ releases with 100% traceability to improve transparency and support regulated-industry compliance.
- Integrated structured data from SQL databases, APIs, and cloud platforms into automated analytics pipelines with daily refreshes, generating business insights that saved ~100 hours annually and accelerated data-driven decision making.

NexTurn | Data Analyst Intern

Remote | May 2025 – Sep 2025

Cloud-native, AI-first firm delivering data platforms, GenAI solutions, and digital transformation for enterprise clients in regulated industries.

- Applied data mining, validation, and statistical analysis techniques across three production AI solutions, achieving over 95% deployment accuracy while improving data quality and model reliability.
- Built a retrieval-augmented analytics application (RAG) using Google Gemini API and Streamlit while leading feature engineering, testing, and performance evaluation across five machine learning projects, reducing validation time by 25%.
- Partnered with product, engineering, and operations teams to translate ambiguous business problems into scalable data solutions while communicating analytical findings and model trade-offs to technical and non-technical stakeholders.

RESEARCH EXPERIENCE

CMU Heinz College | Undergraduate Research Assistant

Pittsburgh, PA | Oct 2025 – Present

- Analyzing 10,000+ diabetes patient records using unsupervised learning, clustering, and statistical analysis to identify clinically meaningful risk segments and generate insights supporting ongoing healthcare research.

Computational Project in Biology Lab Course

Pittsburgh, PA | Mar 2024 - May 2024

- Designed a controlled experiment to test a genetic-modification hypothesis, predicting and validating a 30% improvement in treatment sensitivity through targeted variable isolation.

LEADERSHIP & INVOLVEMENT

Activities Board | Events Chair

Pittsburgh, PA | May 2024 – Present

- Lead planning and execution of 10+ campus events annually (1,000+ attendees) while managing a \$492K budget, coordinating cross-functional teams, negotiating with vendors, and improving operational timelines by 20%.

Mayur - South Asian Student Association | Events Chair

Pittsburgh, PA | Aug 2024 – Present

- Plan and execute cultural events promoting cross-cultural engagement through partnerships with 5+ campus organizations; analyzed and refined marketing initiatives, increasing attendance from 200 to 700+ students.

SKILLS

Technical: Python, SQL, R, Azure, Databricks, Machine Learning, Statistical Analysis, Data Mining, Streamlit, GitHub Actions, Data Visualization (Power BI, Matplotlib), RAG Systems, Databricks Data Engineer Associate Certification (in progress)

Languages: Fluent in English and Malayalam, Conversational in Spanish and Hindi

Business & Leadership: Analytical Problem-Solving, Stakeholder Communication, Cross-Functional Collaboration, Project Management, Event Leadership

Interests: Animal Welfare, Baking, Culinary Arts, Music Curation, Ocean Conservation, Visual Arts
